4th INTERNATIONAL CONFERENCE ON AUTOMATION AND COMPUTATION (AUTOCOM-26)

Technically Co-sponsored by IEEE UP SECTION (INDIA)

Organized by
Department of Computer Science & Engineering
Graphic Era Hill University, Dehradun, Uttarakhand, India

CALL FOR PAPERS

About the conference

The International Conference on Automation and Computation 2026 (AutoCom26) aims to serve as a premier platform for the convergence of innovators, scientists, academicians, scholars, and industry professionals. Our primary objectives include fostering collaboration and knowledge exchange across diverse fields of engineering, technology, and innovation. AutoCom25 seeks to inspire transformative ideas and facilitate the dissemination of cutting-edge research, ultimately advancing the frontiers of automation and computation. By promoting interdisciplinary interactions and providing a forum for the presentation and discussion of groundbreaking research, we aspire to catalyze innovation and contribute to the global progress of science and technology. Join us to shape the future of automation and computation!

Conference Tracks

Track 1: Intelligent Systems

- Many-Core Computing and Accelerators
- Analytics Reasoning and Sense-making on Big Data
- Data Modelling & Semantic Engineering
- AI in Big Data Analytics
- Data Science Models with AI/ FinTech
- Hybrid Machine Learning Systems for Data Science
- AI in Health & Medicine/ FemTech
- Machine Learning Recommender systems in Big Data
- Scalable Computing Models, Theories, and Algorithms
- AI-enabled IoT
- Volume Growth of AI in Metadata use and management
- AI in Agriculture
- High-performance data mining algorithms.

Track 2: Communication Devices & Signal Processing

- Antenna Designing
- Digital Signal Processing
- VLSI
- 5G, 6G Communication
- Wireless Communication
- Channel Modelling
- MIMO Communication System
- Microwave Communication Devices
- RF-Signal Propagation
- Terahertz Communication
- RFID Technologies
- MEMS (Micro Electromechanical Systems)
- Actuators, Sensing Devices
- Radar Signal Processing
- Audio/Speech/Music Signal Processing
- Image/Video signal Processing

Track 3: Security:

- Advance Security techniques
- Big Data Techniques in Cyber Security
- Forensic Analysis of Cyber Crimes
- Cloud security
- Advanced Persistent Threat
- Network Monitoring and Control
- Secure Design, Tooling, and Engineering
- Security and Trust of Citizens
- Database security
- Security in IoT
- Metaverse

Track 4: Communication Networks

- Digital Signature Techniques
- Network Protocols
- Next-generation Communication Networks
- Data Acquisition System
- Satellite Communication and Networks
- Modelling & Simulation of communication networks and Systems
- Routing and Flow Control in LANs, WANs, and PANs
- Secure Routing, Naming/Addressing, and Network Management
- Security & Privacy in Pervasive and Ubiquitous Computing
- Security & Privacy in Peer-to-Peer and Overlay Networks
- Security & Privacy for Emerging Technologies: VoIP, Social Networks
- Security & Isolation in Cloud, Data Centre, and S/W-Defined Network
- Telemedicine.

Important Dates:
Paper submission deadline: 10-May-2026
Conference Date: 22-24, October, 2026

Official Website: www.autocom.org.in
Article Submission: https://cmt3.research.microsoft.com/AUTOCOM2026/Submission/Index
Email: autocom@gehu.ac.in
Contact Numbers: +91-9082373573, +91 9412941219, +91 98708 96031
